

## Press Release

August 1, 2014  
Sacramento, CA

### **Pay Per Cloud Announces Partnership with California State Association of Counties**

Pay Per Cloud announced today that it has now become a California State Association of Counties (CSAC) premier partner. CSAC provides advocacy services to the 58 counties in California as well as offering education and events to support the varied needs of the counties.

As a CSAC premier partner, Pay Per Cloud will be offering cloud hosted solutions and managed IT services designed to meet the specific technology needs of the individual California counties. Pay Per Cloud offerings include:

- IT Managed Services
- Hosting Services (Private Cloud, Private Virtual Cloud, Hybrid Cloud, SaaS)
- Disaster Recover As A Service

Miles Feinberg, President & CEO of Pay Per Cloud stated, “We are excited about our partnership with CSAC and look forward to bringing our extensive IT and cloud hosting experience to the community that CSAC serves. We know that there are very specific security, compliance and budgetary needs facing counties today and with our blend of managed services and compliance hosting solutions we offer a great solution for counties to improve their overall IT posture while reducing costs of ongoing management.”

#### About Pay Per Cloud

*Pay Per Cloud hosted-solution clients benefit from fail-proof hardware redundancy and disaster recovery, 99.99% uptime, the performance a low latency 10GB network backbone and best-of-breed hardware along with automatic upgrades to the newest versions of software, all for a predictable monthly fee rather than repeated capital expenditures.
