

When building a cloud solution that's right for you...

## IT MATTERS.

With all the talk of cloud these days it is hard to know how to differentiate one solution from the next. Is it secure? Will it scale? Should I go Private Cloud or Public? How are my competitors using the cloud? Will I get left behind if I don't have a cloud strategy? These are just some of the questions nagging business owners and IT executives.

[Join us](#) and our panel of cloud experts for a free lunch and find out how to:

- Reduce your IT costs by up to 25%
- Create a highly mobile and flexible IT infrastructure
- Build an efficient, high-performance cloud solution that is reliable, agile, and easily scales with your business demands
- Most efficiently utilize resources to reduce CapEx and OpEx
- Reduce risks related to cloud hosting compliance and security

You will also get a behind-the-scenes hosted tour of one of the premier data centers in Northern California\* and be entered into a drawing for a [Roku HD](#).

This event will be limited in size so please [RSVP today](#) to hold your spot.  
To RSVP, call Kelley Daigle at 916-945-0424

\* Due to the secure nature of this facility, a signed NDA will be required for access.
